

How to Purchase RedPanda

Install MetaMask for Google Chrome

Why – MetaMask is a crypto wallet to store your tokens.

1. Open a Google Chrome browser
2. Google [MetaMask](#) and install the extension
3. Import or create a new wallet
4. Create a password
5. Save secret backup phrase in a safe place

Purchase Ethereum

Why? Purchasing Ethereum (ETH) will allow you to purchase RedPanda. We are using USD to purchase ETH to purchase RedPanda.

1. Go to Coinbase.com and open an account. You will have to do the standard verification process to deposit.
2. Add a debit card to use for deposit; this is the fastest way as any funds you buy using a debit card are available immediately for withdrawal to another wallet (MetaMask). You can add a bank account but it takes several days for clearance to withdraw any crypto you buy.
3. Buy the amount of ETH you want to buy RedPanda with using your debit card.

Send Your ETH to Your MetaMask

1. Copy your MetaMask wallet address (begins with 0x), go back to Coinbase and click “Send/Receive”.
2. Choose the amount of ETH you wish to send and paste your MetaMask wallet address into the “To” field. Press continue and verify to complete.
3. Note, that a small fee will be deducted from the overall amount sent, Coinbase lets you know the amount based on ETH network activity.
4. Wait for your ETH to arrive to your MetaMask!

Connect Wallet to Uniswap

Why? This will allow you to swap your ETH for Red Panda

1. Go to [Uniswap](#)
2. Click “Use Uniswap”
3. Click “Connect to a wallet”
4. Click “Connect with MetaMask
5. Follow prompts to connect wallet
6. Click “Select a token”
7. Search for “Red Panda” (Make sure you see the RedPanda logo)
8. Click import 2 times

How to Purchase RedPanda

Purchase Red Panda

1. Enter amount of ETH to spend on RedPanda in Uniswap
2. Make sure to leave 5% of ETH to pay for the transaction/swap.
Every transaction/swap requires a fee in ETH.
3. Set slippage to 5%
Why? The price of a token is constantly moving up and down. Slippage is the range the token can move up or down from the current price with the transaction still going through.
4. Click on “No liquidity! Click to trade with V2”
5. Click “Swap”
6. Click “Confirm Swap”
7. Confirm the transaction within MetaMask when the pop-up occurs

Confirm through MetaMask

Why? To ensure the transaction went through and you can see your tokens in MetaMask.

1. On the Uniswap page, click “Add REDPANDA to MetaMask”

Install Zerion

Why? To see the price of red panda and your tokens at the same time.

1. Open [Zerion](#)
2. Click “Connect wallet”
3. Click “Log In with MetaMask”
4. A new popup from MetaMask will open
5. Click “Next”
6. Click “Connect”
7. Review your RedPanda and ETH

Accessing MetaMask

Click on extensions at the top right corner of a Google Chrome browser
